Business of the Month

Tis' the season of spring (yard) cleaning! Hodnefield Services LLC was founded by Kolby Hodnefield in 2021, as he was graduating high school to fuel passion for entrepreneurship, running equipment, and delivering a product customers are happy with. He recognized the need for more reliable stump grinding companies in the area that do great work at great prices. After two years in business we decided to branch out even more and start offering garden tilling services. Contact today!

Saving money is a bit like eating healthy; you know you should eat your veggies, but it's hard to resist indulging in something more fun. Like making healthy choices, a tax refund can present the opportunity to splurge. But, more importantly, it's a chance to put yourself in a better financial position. If you're getting a refund from the IRS, here are some ideas on how to use it for your long-term benefit.

- Boost or Replenish your Emergency Fund – Do you have 3 months of living expenses set aside?
- Pay down high-interest debt – Credit Card debt weighing you down?
- Fund or Add to your Retirement – Boost your retirement account and take advantage of compound interest over time
- Invest in your career – Take a class or build up inventory for that new start up business you've always wanted
- Pre-Pay your mortgage – Making extra mortgage payments will decrease interest you pay over the life of the loan
- Update your Home – Home improvements are wise investments when they save on utility bills or when it's time to sell
- Buy Life Insurance – If it's been on the back burner, consider a cost-effective term life insurance policy to help protect the ones you love
- Support a Charity – If you feel the need to give back, donate a portion to a worthy cause and lower your taxable income in the process

How you spend your money will ultimately depend upon your specific financial situation. We want you to get the biggest bang for your tax refund buck!
